RE: DEAN MARTIN 9/13/60

Dear Bob:

Dean Martin underwent colonoscopy today for the reasons outlined in my letter of February 2nd. I was able to pass the scope all the way around to the cecum and found a normal colon. From the colon cancer screening standpoint, it is recommended that a colonoscopy be repeated in ten year's time. I have enclosed a copy of the report and the pictures taken during this examination for your records and I thank you for allowing me to participate in the care of your patient.

Sincerely,

Robert A. Bazewicz, M.D.
